

BREAKOUT SESSIONS *≈ 40 MINUTES*

Attendees will be guided through breakout sessions that further explore areas of health and health-care and include interactive activities for attendees to experience skills and actions that are integral to a successful career. Attendees will be attend 2 of 4 sessions. Currently planned sessions include:

- **Hybrid Session: Pre-Health Professional Student Panel (Student National Medical Association - SNMA)** with Caitlyn Johnson and Jasmine Bryant of SNMA and Meharry Medical College (MMC) student panel
Location: LRC Lower Level
- **So What Exactly is TN AHEC/TN HOSA?** with Kiah Fisher (HOSA State Officer Coach) and Youstina Saber (Former TN HOSA President and Current International Executive Council Member) and TN AHEC Scholars
Location: LRC Lower Level
- **Preparing for Health Professions School, Time Management and Study Habits for Pre-Health Students, Tests, Scores & MCAT** with Nathan King of MMC Student Affairs/Admissions & Tennessee Center for Health Workforce Development (TCWD)
Location: LRC Lower Level; Main Lecture Hall
- **Meharry Medical College Simulation Lab** – The Pamela C. Williams, M.D., Simulation and Clinical Skills Center is an 8,000-square-foot facility used for the simulation of medical procedures such as operations, medical examinations, and deliveries of babies. The state-of-the-art facility offers a new training experience for medical students to gain hands on experience as they replicate medical procedures in a controlled and stress-free environment.

Simulators help students learn important skills such as team-building, critical-thinking, decision-making, and how to perform under pressure. The Pamela C. Williams, M.D., Simulation and Clinical Skills Center allows medical students to simulate situations that range from routine medical check-ups to complicated surgeries, all performed on life-like manikins.

Location: LRC Basement Level
